

DRAFT FOR DISCUSSION

US Army Corps of Engineers (USACE)	2
Federal Emergency Management Agency (FEMA).....	3
US Fish and Wildlife Service (USFWS)	4
National Oceanic and Atmospheric Administration (NOAA)	5
Natural Resource Conservation Service (NRCS)	5
US Geological Survey (USGS).....	7
Environmental Protection Agency (EPA).....	8
Snohomish County (SnoCo).....	9
Snohomish Conservation District (SnoCD)	10
Tulalip Tribes of Washington (Tulalip)	11
Department of Agriculture (Agriculture)	12
Department of Fish and Wildlife (DFW).....	13
Department of Ecology (Ecology).....	14
Recreation and Conservation Office (RCO)	15
Department of Natural Resources (DNR).....	16
Puget Sound Partnership (PSP)	17
Department of Health (Health)	18
Department of Commerce (Commerce)	19
Department of the Military (Military)	20
Conservation Commission (WACC)	21

DRAFT FOR DISCUSSION

US Army Corps of Engineers (USACE)

- ☐ **Identify a coordinated investment policy lead** – This lead will need to interact between civil works, regulatory, and flood programs.
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response describing your intentions to implement the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within USACE, including opportunities for long term USACE construction project management through IPAs, technical assistance through SWIF processes, or the SAGE program, or other services.
- ☐ **C1 – French Creek Pilot** – Assign French Creek project to appropriate regulatory staff as initial investment in developing interagency efficiency around floodplain regulation.
- ☐ **D2 – Single Schedule** – Submit information on CAP programs as part of a shared grant program list.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the Tulalip workshop, and participate in discussion of SLR standards.

DRAFT FOR DISCUSSION

Federal Emergency Management Agency (FEMA)

- ☐ **Identify a coordinated investment policy lead** – Berry Gall
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response describing your intentions to implement the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within FEMA, including opportunities for long term construction project management through IPAs, hydrologic and hydraulic modeling to support flood benefit analysis, support on FEMA benefit -cost analysis or other services.
- ☐ **D1 – Whole Project Budget Template** – Identify point of contact to work with state staff to evaluate how a standard project budget could be adjusted to support FEMA benefit-cost assessment methods.
- ☐ **D2 – Single Schedule** – Submit and update information as part of shared grant program list.
- ☐ **E1 – Integrated Farmland Protection** – Participate in a workshop to evaluate how FEMA acquisition resources could be integrated into a farmland protection strategy.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussion.

DRAFT FOR DISCUSSION

US Fish and Wildlife Service (USFWS)

- ☐ **Identify a coordinated investment policy lead** – Curtis Tanner
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response describing your intentions to implement the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within FEMA, including opportunities for long term construction project management through IPAs, regulatory assistance, geomorphology and restoration design, cultural resources evaluation, or other services.
- ☐ **C1 – French Creek Pilot** – Consult with the NOAA representative to the French Creek workgroup on whether strategies developed in French Creek would be consistent with USFWS interpretations of ESA.
- ☐ **D2 – Single Schedule** – Submit and update information as part of shared grant program list.
- ☐ **E1 – Integrated Farmland Protection** – Participate in a workshop to evaluate how USFWS acquisition practices could be integrated into a farmland protection strategy.

DRAFT FOR DISCUSSION

National Oceanic and Atmospheric Administration (NOAA)

- ☐ **Identify a coordinated investment policy lead** - Will Stelle
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response describing your intentions to implement the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Define Restoration Center contributions to coordination team (Paul Cereghino).
- ☐ **B1 – Build Teams** – Identify project assistance capacity within NOAA, including opportunities for long term construction project management through IPAs, ESA consultation assistance and programmatic tools, and scientific and technical services (Laurel Jennings/Jim Wright).
- ☐ **C1 – French Creek Pilot** – Identify appropriate regulatory staff as an initial contribution in developing interagency efficiency around floodplain regulation (Janet Curran)
- ☐ **D1 – Whole Project Budget Template** – continue participation in Water & Salmon Grant Program Coordination for federal caucus (Paul Cereghino).
- ☐ **D2 – Single Schedule** – Submit information on NOAA programs as part of project implementation “opportunity” list (Lauren Senkyr)
- ☐ **H1 – Sea Level Rise Vulnerability** – NOS will support workshop implementation and coordinate.

DRAFT FOR DISCUSSION

Natural Resource Conservation Service (NRCS)

- ☐ **Identify a coordinated investment policy lead** – Sherre Copeland
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response describing your intentions to implement the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within NRCS and USDA, including opportunities for long term construction project management through IPAs, Agricultural Engineering support, and other services.
- ☐ **D1 – Whole Project Budget Template** – coordinate with Water and Salmon on how to represent cost-share program agreements within a larger project framework.
- ☐ **D2 – Single Schedule** – Submit information on cost-share programs as part of project implementation “opportunity” list.
- ☐ **E1 – Integrated Farmland Protection** – Participate in a workshop to evaluate how NRCS/USDA acquisition practices could be integrated into an integrated farmland protection strategy.

DRAFT FOR DISCUSSION

US Geological Survey (USGS)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within USGS, particularly focused on remote sensing, scientific assistance and monitoring expertise.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussion.

NOT PARTICIPATING

DRAFT FOR DISCUSSION

Environmental Protection Agency (EPA)

- ☐ **Identify a coordinated investment policy lead** – Peter Munchie
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Support LIO coordination function within coordinator network
- ☐ **A3 – Accelerate LIO Implementation** – Participate in discussion between the coordinator network, PSP, and EPA to define a pathway toward direct LIO funding under an exemplary strategic plan.
- ☐ **B1 – Build Teams** – Identify project assistance capacity within EPA, including scientific expertise to support local implementation.
- ☐ **D2 – Single Schedule** – Submit and maintain information on any EPA programs as part of grant list.

DRAFT FOR DISCUSSION

Snohomish County (SnoCo)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Clarify responsibility for sub-basin coordination among existing county coordinators.
- ☐ **A2 – Ecosystem Design Efforts** – Assist coordinator network in clarifying the county's interests in integrated ecosystem design.
- ☐ **A3 – Accelerate LIO Implementation** – Empower the LIO Coordinator position to support sub-basin workgroups through the LIO forum.
- ☐ **B1 – Build Teams** – Determine if the county is willing to host interagency personnel if available.
- ☐ **C1 – French Creek Pilot** – Identify a point of contact for the French Creek workgroup to facilitate an interagency floodplain permitting team.
- ☐ **D1 – Whole Project Budget Template** – Provide critique of budget structure from a capital project perspective.
- ☐ **D2 – Single Schedule** – Lauren Tracy – coordinate a local evaluation of what information fields are useful to local staff.
- ☐ **E1 – Integrated Farmland Protection** – Represent the mechanisms, needs and aspirations of the county PDR/TDR system at an interagency workshop.
- ☐ **H1 – Sea Level Rise Vulnerability** – Define county interest in Sea Level Rise risk analysis.

DRAFT FOR DISCUSSION

Snohomish Conservation District (SnoCD)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** –Clarify participation in sub-basin workgroups among existing staff.
- ☐ **A2 – Ecosystem Design Efforts** – Facilitate agricultural system design needs within sub-basin workgroups.
- ☐ **B1 – Build Teams** – Determine whether the CD would be willing to host interagency personnel placements if they were available.
- ☐ **C1 – French Creek Pilot** – Identify point of contact for the French Creek workgroup to facilitate an interagency permitting team to resolve drainage management regulation.
- ☐ **E1 – Integrated Farmland Protection** – Facilitate review of integrated farmland protection strategies by local agricultural stakeholders.

DRAFT FOR DISCUSSION

Tulalip Tribes of Washington (Tulalip)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Empower PSAR capital projects coordinator to participate in Coordinator Network on behalf of tribe.
- ☐ **A2 – Ecosystem Design Efforts** – Assist coordinator network in clarifying the Tribe's interests in integrated ecosystem design.
- ☐ **C1 – French Creek Pilot** – Identify a point of contact for the French Creek workgroup to facilitate an interagency floodplain permitting team.

DRAFT FOR DISCUSSION

Department of Agriculture (Agriculture)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within Department of Agriculture, including small farm economic development.
- ☐ **D2 – Single Schedule** – Submit information on funding assistance programs as part of project implementation “opportunity” list.

DRAFT FOR DISCUSSION

Department of Fish and Wildlife (DFW)

- ☐ **Identify a coordinated investment policy lead** – Jeff Davis/Bob Everitt?
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Support participation of the new ESRP/Habitat communications biologist.
- ☐ **B1 – Build Teams** – Identify project assistance capacity within WDFW, including opportunities for long term construction project management through IPAs, fish passage engineering, monitoring, GIS analysis and other scientific services.
- ☐ **C1 – French Creek Pilot** – Kirk Lakey - Identify point of contact for French Creek project to appropriate regulatory staff as initial investment in developing interagency efficiency around floodplain regulation.
- ☐ **E1 – Integrated Farmland Protection** – Encourage Lands Program staff participation in an interagency workshop on land acquisition/easement/lease strategies.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the April 26-27 workshop, and participate SLR standards discussion particularly in relation to extensive delta land holdings.

DRAFT FOR DISCUSSION

Department of Ecology (Ecology)

- ☐ **Identify a coordinated investment policy lead** – Josh Baldi?
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within Ecology, including opportunities for long term construction project management through IPAs, water quality monitoring and analysis, floodplain management and flood hazard planning.
- ☐ **C1 – French Creek Pilot** – Erik Stockdale - Identify point of contact for French Creek project to appropriate regulatory staff as initial investment in developing interagency efficiency around floodplain regulation.
- ☐ **D1 – Whole Project Budget Template** – Empower a point of contact to develop a project budget and project phasing format that supports applications to Water Quality and floodplain by Design applications, as part of Water and Salmon Grant Coordination work.
- ☐ **D2 – Single Schedule** – Continue to lead Water and Salmon Grant Coordination work as clearinghouse for grant information.
- ☐ **E1 – Integrated Farmland Protection** – text
- ☐ **H1 – Sea Level Rise Vulnerability** – Dave Radabaugh - Send an appropriate representative to the workshop, and participate SLR standard discussion, as an integral part of developing state standards for integrating sea level rise in to planning and design.

DRAFT FOR DISCUSSION

Recreation and Conservation Office (RCO)

- ☐ **Identify a coordinated investment policy lead** – Brian Abbott?
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **D1 – Whole Project Budget Template** – Tara Galuska - Empower a point of contact to develop a project budget and project phasing format that supports applications to Water Quality and floodplain by Design applications, as part of Water and Salmon Grant Coordination work.
- ☐ **D2 – Single Schedule** – Continue to lead Water and Salmon Grant Coordination work as clearinghouse for grant information.
- ☐ **E1 – Integrated Farmland Protection** – Elizabeth Butler - Empower an acquisition specialist to participate in an interagency workshop to develop a streamlined and integrated acquisition/easement/lease strategy for agricultural landscapes.

DRAFT FOR DISCUSSION

Department of Natural Resources (DNR)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within DNR, including opportunities for long term construction project management through IPAs, forest harvest regulation, and state owned aquatic land regulation.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussions, as part of management of State owned aquatic lands.

DRAFT FOR DISCUSSION

Puget Sound Partnership (PSP)

- ☐ **Identify a coordinated investment policy lead** – Marc Daily?
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **A1 – Assign Coordinator Roles** – Empower ERC staff to serve as the support component of a Snohomish Coordinator Network.
- ☐ **A3 – Accelerate LIO Implementation** – Empower a point of contact within the partnership to support the Snohomish Coordinator Network in developing a model integration of the Action Agenda and Implementation Strategies into LIO Strategic Planning.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussion, facilitating continued development of integrated state-federal standards to support local planning.

DRAFT FOR DISCUSSION

Department of Health (Health)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within Health, including opportunities for technical assistance around fecal coliform management.
- ☐ **D2 – Single Schedule** – Submit information on funding assistance programs as part of a unified grant schedule.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussion, related to septic regulation in coastal communities.

NOT PARTICIPATING

DRAFT FOR DISCUSSION

Department of Commerce (Commerce)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within Commerce, including opportunities for comprehensive planning support.
- ☐ **D2 – Single Schedule** – Submit information on funding assistance programs as part of a unified grant schedule.

NOT PARTICIPATING

DRAFT FOR DISCUSSION

Department of the Military (Military)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within Military EMD, including support for flood resilience planning, or proactive emergency response planning.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate in SLR standard discussion.

NOT PARTICIPATING

DRAFT FOR DISCUSSION

Conservation Commission (WACC)

- ☐ **Identify a coordinated investment policy lead – ??**
- ☐ **Participate in quarterly meetings**
- ☐ **Provide a written response to the proposed work plan and coordination structure**
- ☐ **B1 – Build Teams** – Identify project assistance capacity within the Conservation Commission, including the capacity of the Coordination Resource Management program.
- ☐ **D1 – Whole Project Budget Template** – Continue to participation in Water and Salmon Grant Coordination processes to support unified project description and funding.
- ☐ **E1 – Integrated Farmland Protection** – Authorize a representative to participate in multi-agency workshop to evaluate acquisition/easement/lease options, representing CREP and RCPP efforts.
- ☐ **H1 – Sea Level Rise Vulnerability** – Send an appropriate representative to the workshop, and participate SLR standard discussion.
