

Black River Protection - Capitol Land Trust

Project Name (*ASRP funded)	Status	Budget	River Miles & Acres
1 Blooms Preserve OSF Restoration*	Design & Construction	\$214,360	0.3 miles / 14.7 acres
2 Blooms Preserve OSF Restoration Phase 2*	Design & Construction	\$399,000	0.1 miles / 8.5 acres
3 Blooms Ditch Protection 3.1-3.4 Conservation Easement*	Acquisition	\$352,000	70 acres
Black River Forestry Carbon Sequestration Conservation Easement	Acquisition	\$8,000,000	2,462 acres
Bergquist Conservation Easement	Acquisition	-	75 acres
Ramos Preserve	Acquisition	-	36.6 acres
Darlin Creek Preserve	Acquisition	-	312 acres
Edwards Conservation Easement	Acquisition	-	50 acres
Carlson Easement	Acquisition	-	5 acres

● Active projects funded by ASRP — CLT conserved lands

- 1 **Blooms Preserve OSF Restoration** – project completed in 2024 and included construction of 24 OSF breeding ponds, installation of woody debris in-stream and in new ponds, creation of riparian cover through planting of native plants, and increase in diversity of native plants.
- 2 **Blooms Preserve OSF Restoration Phase 2** – project initiated in 2025 and includes additional creation of riparian cover and plant diversity, invasive vegetation control, invasive wildlife control, and construction of legal access road.
- 3 **Blooms Ditch Protection 3.1-3.4** – project initiated in 2025 and includes the purchase of a conservation easement over 70 acres of land hosting important OSF habitat and habitat potential, 0.3 miles of Blooms Ditch, open space and forested uplands.
